

UNITED STATES GOVERNMENT

# Memorandum

TO : AD/OEL

DATE: 29 June 1965

FROM : DAD/S&D

SUBJECT:

25X1A

I believe that it might be instructive to Wheelon and perhaps [ ] and others of OSA to pile all of the proposals that were received up on a table and then indicate the depth to which the analysis to which these proposals was studied. I think that [ ] and the Committee have done an outstanding job and I think some mention of this fact from you or from Wheelon would be appropriate. With the continuation of this type of work, I feel we should have no problems at all in convincing NRO that we have done a thorough job. 25X1A
